

naturaeco ingeo™ natural fibre

Made from natural, sustainable & renewable resources... like corn!

20%- 50% LESS fossil fuel used than petroleum based products

100% bio-degradable

Contribute to saving our planet!

ingeo™ ... it's a **revolution!**

Bambi is proud to be the first company in Australia to be awarded the licence to make bedding products using **ingeo** natural fibres.

The result of the latest technological breakthrough, **ingeo** is a new man-made fibre that is derived from abundant and annually renewable natural raw material... like corn.

Ingeo can easily and efficiently be reproduced with limited impact on the earth's natural resources.

In simple terms, the production and use of products using **ingeo** means less 'greenhouse' gasses to the atmosphere and a 'greener' future for all of us.

Some of the benefits of naturaeco bedding products:
